9771 exp 10

Postlab

→1 To overcome combinatorial explosion in TSP are
    - Use Approximation Algorithms
    - Employ Heuristic Methods
    - Apply Metaheuristic Techques
    - Utilize Problem Decomposition
    - Implement Intelligent Pruning

2 learning from TSP are
   - understand Optimization Techniques
   - Enhance problem-solving skills
   - Explore Algorithm Design
   - Learn Real-world Applications
   - Grasp Computational Complexity challenges.
